

BATTLEFIELD INTERNATIONAL PNEUMATIC VALVES

MANUAL VALVES 22.5mm PANEL MOUNT 3-WAY

Series V01 panel valves are used to control air pilot valves, or to directly control small cylinders. They are easily mounted in pneumatic control panels. The mushroom buttons are red, the selectors are black and the finger operators come with red, white and black colored finger plates. The push/pull operators are red in color as they are often used as emergency stops. When the push/pull buttons are pushed they will stay detented until they are manually pulled back to the starting position. Temperature range is -20C.....+80C. Pressure range is 0.....10 bar .
